

SW-112B

FULLRANGE & BASS LOUDSPEAKER

Description

5.S Audio SW-112B is a 12" compact low frequency loudspeaker with powerful ultra LF response. The design of woofer and enclosure brings out tight and accurate LF response, which is the most idea for matching with LY-08. With the most advanced units equipped with long stroke, the large magnetic brings extremely high magnetic flux to increase efficiency. The 3.5" voice coil is with the height of 35mm which can ensure to stroke in 26mm/pp continuous magnetic driving. The most advanced wool fiber paper corn which ensure the maximum hardness and inertial movement. The triple copper wire with the highest heat resistance is adopted to reduce the power compression when the coil is heated, and improve the sound quality and performance comprehensively.
